AMC 460 FLUSH-MOUNT SPEAKER

GREAT SOUNDING FLUSH-MOUNT SPEAKER PERFECT FOR MUSIC, AND 5.1 HOME THEATER

The Snell AMC 460 was designed to be as accurate, clean and musical as our free standing speakers. The unobtrusive, flush mount design makes them ideal for installation in walls or ceilings where space or decor make conventional speakers undesirable or inappropriate. They can also be used as front or rear channels in a home theater system. Strict attention to detail and quality of construction make it a true value for the serious music lover who demands wide bandwidth, low distortion and impressive dynamics. The AMC 460 utilizes a high power handling 6 1/2-inch woofer and a ferrofluid cooled 1-inch Kortec tweeter, together they are hand tuned to a high order crossover for smooth response and wide dynamic range. Its clever mounting system allows easy installation throughout the home without visual distraction.

AMC 460

SPECIFICATIONS

Frequency Response

57Hz-20kHz \pm 3dB anechoic

Recommended Amplifier Power

10 to 125 watts

Nominal Impedance

8 ohms

Sensitivity

89dB

Tweeter

1" ferrofluid cooled textile dome tweeter

Bass Unit:

6 1/2-inch high power handling woofer

Crossover Frequency

3400Hz

Grille

Perforated metal

Outside Dimension

10⁹/₁₆" h x 7³/₄" w

Rough Opening Requirements

9⁷/₈" h x 7¹/₈" w x 3¹/₈" d

Weight/Pair (Shipping)

11 lbs.

Finish

White, suitable for painting

Hand Tuning

Our technicians rigorously match our systems to within \pm 0.5dB of the Master Reference
